Toronto, ON M5V 3M4

Dear Hiring Manager,

Your advertisement for Mobile Developer (Entry Level) posted in March caught my attention. I was drawn to the advertisement because of my love and affection for programming mobile devices.

I have numerous experiences building projects for mobile devices. I also have 2 years of experience fixing people's code. Due to this experience, I feel that I can make valuable contributions to Konrad. I have attached a copy of my resume, which lists my qualifications and shows how I can make an impact to Konrad.

Please feel free to reach out to me at raiyanrofuquizzaman@gmail.com or 647-341-1964.

Thank you for considering me for this position.

Sincerely,

Raiyan Rofiquzzaman
